New Attraction On Baby Beach.

San Nicolas already know as a big tourist attraction is stepping up with local art on baby beach, turtle & flamingos made from safe eco friendly materials is on display and was the island visitors love it. It's our creativity and personality that keep us standing out from other islands

Covid-19 Vaccines Finally Reach Aruba

How to Sign Up

Take note of the different ways you can register.

Scenario 1:

The first form of registration that was reported to the community was via the Aruba Health App. To register through the Aruba Health App, the person must download this from their Play Store or Apple Store and follow the instructions to create a user.

Those people who have already downloaded this application in the past, should update it; once it is updated or if it is the case if you have created a new user, you will be able to see an icon of the vaccine; You must press or click there and you will be registered to receive the vaccine.

In an App (application) you can register more than one user, this means that a complete family can be incorporated into a single App. Simply click where it says "Add user" and you can incorporate, for example, the mother , to the father, grandparents etc, who perhaps do not have a smart phone and thus can register them so that they receive the vaccine.

Those who have a smart cell phone and AZV but may need help to register can go to the MFA (Multi-Functional Facilities) for assistance. The service in the MFA will be from Monday to Friday from 7:30 am to 4:30 pm "non-stop" starting from Monday, February 8 at 12:00 noon.

Another way in which they can also register is through aruba.dvgapp.org and in the same way as with the App they can follow the instructions to create a user and register.

Those who do not have AZV will not be able to apply for the vaccine through the Aruba Health App, nor via aruba.dvgapp.org. For those who do not have AZV there is another process. Next, the possible scenarios and processes will be described so that they can register to obtain the vaccine.

Scenario 2:

Those who do NOT have AZV but are enrolled in the Census because they are working in Aruba for a long time or indefinite time; for example those people who are working for the Dutch State in "the Armed Forces" and their partners. These people can go to one of the MFA buildings to register. What these people must bring to register is a form of legal identification (ID) or passport and proof of Aruba residency. The service in the MFA will be from Monday to Friday from 7:30 am to 4:30 pm "non-stop" starting from Monday, February 8 at 12:00 noon.

Scenario 3:

Those people who have a Dutch passport and are NOT tourists, but are living close to their family for a long time or for an indefinite time; that they are not registered in the Census, and that for this reason they do not have AZV. They must go to one of the MFA buildings to register; these people must carry a form of legal identification. The service in the MFA will be from Monday to Friday from 7:30 am to 4:30 pm "non-stop" starting from Monday, February 8 at 12:00 noon.

Scenario 4:

Those people who are living in Aruba but do NOT have legal status; these people can go to one of the MFA buildings to register. What these people

must bring to register is a form of legal identification (ID) or passport and proof of Aruba residency.

It is important for citizens to know that the vaccination campaign is for the Aruba community, that is, all those people who are living in Aruba for a long time or for an indefinite time. The campaign excludes tourists who are on vacation in Aruba.

ULTIMO INFORMACION

2020 Volunteer Of The Year Winner

We would like to congratulate Aleja Emanuels for winning the Volunteer Of The Year Award 2020, this retired chef made sure that 1000's of families eat 2x a week and she did this for FREE always saying “God Is Great, And He Will Provide” she is a key part of Unity In The Unity In The Community Foundation cooked food program. You deserve this and much more, We love you and Thank You. Bigger things ahead.

San Nicolas Business Association Important Meeting With Eagle LNG

You might not see them often, it's because they are busy working to improve San Nicolas. San Nicolas Business Association held an important meeting with those who are in process of reopening the refinery, this reopening is one of the most on the island as we have seen that Aruba can not live from tourist alone. Thousands of families are out of work, and have their fingers crossed for everything to fall in place.

San Nicolas Will Rise Again

Grand Opening Of The Hub In San Nicolas Main Street.

In these difficult times, we salute all those who are brave enough to take the risk and start a business, mostly in San Nicolas. The Hub is a combination of not only a place to go and relax and enjoy, but it also has a great energy when you are there. Most of us are looking at the same 4 walls for hours due to the pandemic and need to relax your mind.

Congratulations guys and thank you for believing in San Nicolas
